HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MAY 30.

Congressional.

WASHINGTON, May 28.—In the House the consideration of the bill to reduce internal revenue taxes was resumed. On motion the tax on sales and contracts for the sale of stocks, bonds, gold, silver was reduced from two cents for $100 to one cent, the present rate; a provision was inserted taxing contracts for delivery, gold coin through clearing houses or other institutions one-twentieth of one per cent additional. An amendment increasing the taxes on all gambling operations in gold and stocks was agreed to. A paragraph relative to distillers was amended by taxing distillers of spirits from apples, peaches or grapes, producing ten barrels or less within the year, four dollars for every barrel produced in excess of ten barrels; and an additional paragraph was inserted taxing proprietors of banking games, such as faro, roulette, rouge et noir, etc., $10 00 for every table where such games are played. The exemption of savings institutions is limited to those not authorized to receive a higher rate of interest than the rate authorized by the general laws of the State where located.

The Senate confirmed John Pratt Marshal for New Mexico; Chas. O. Burton, Postmaster for Stockton, California.

A supplementary treaty extending to July 1st the time for the ratification of the San Domingo treaty was sent to the Senate; also the British naturalization treaty.

The Fenian Situation.

NEW YORK, May 28.—A special to the *Times* last night from Malone, says over a thousand Fenians are here now and several hundred more are expected to night or in the morning if the Buffalo police fail to stop their coming from the west. Gen. J. H. Gleason of Richmond, Virginia, has assumed command of the forces here, and Gen. Starr has disappeared, as the Fenians threatened to lynch him for cowardice. It is reported that two Fenian prisoners are to be hung this morning.

TORONTO, May 28.—All quiet during the night. Only ten Fenians reported at the camp at Trout river. Eight more Fenians killed and twenty wounded yesterday. All quiet on the Niagara and Detroit frontiers, but an ample force will be kept up to defend all the borders of the Dominion. Small bands are wandering near the lines unable to return home. The excitement has almost ceased and business is rapidly assuming its former condition.

The latest advices from the Red river expedition say everything is going smoothly forward, and Archibald will soon leave to assume his duties.

CHICAGO, May 28.—The news of the disaster to the Fenians at Malone, yesterday, seems to have had little effect on the Brotherhood here. Men continue to be enlisted and money raised. The impression among outsiders, however, is that the whole movement is about ended.

The *Tribune's* special from Boston has reliable information from Malone, last night, to the effect that the invasion from that point is a more complete and disgraceful affair than that at St. Albans. The men were utterly demoralized. A revival of the movement which some officers talk of is impossible. The affair is at an end. Even the newspaper correspondents are returning.

Revenue Matters.

Receipts of internal revenue for the current year to date, $155,000,000. For the year ending June 30th, the receipts will reach $175,000,000.

WASHINGTON, May 29.—The Secretary of the Treasury has ordered the sale of five millions of gold and the purchase of eight millions of bonds during June.

The forthcoming statement of the public debt will show a decrease equal to that of April.

The End of the Fenian Raid.

MALONE, N. Y., April 28.—The Fenians held a council of war this afternoon and resolved that the present movement against Canada should be abandoned. The council was composed of commissioned officers, but the leaders of the raid are nowhere to be found. One hundred and thirteen car loads of Fenians, with war material, were saved. Capt. Jas. Murphy, of New York, is reported captured and shot at Pigeon Hill. Government has provided transportation for the Fenians and they are hurrying homeward.

TORONTO, May 29.—There is information from Malone of the arrival of U. S. Marshal Quimby and the arrest of several men supposed to be Fenian officers, including Gen. Gleason and Father Machon. The railroad company offer to take the Fenians home at half fare, but the leaders cannot raise funds. The towns people will probably raise money to ship them off

Miscellaneous.

ST. LOUIS, May 28.—Mike McCoole and Tom. Allen signed articles this afternoon for a fight for $2,500 a side, to take place on September 13th, within fifty miles of St. Louis.

NORFOLK, May 28.—It is understood that the Radicals will endeavor to have the election, set aside on the ground of fraud and intimidation.

NEW YORK, May 28.—A letter from San Domingo states that Saget, the traitor agent of Valmaseda, was captured, together with forty men, at Carotillo, and were all shot. Valmaseda was attacked at Bayonee and is surrounded and can hardly escape.

Washington News in General.

CHICAGO, May 30.—The *Times'* Washington special says the time for ratifying the San Domingo treaty has been extended to July 1st. Fabion who represents Baez, has signed the extension, which has been accepted by Secretary Fish. The prospect of its ratification is now improved.

The prospect of passing any general amnesty bill this session is slight. There is a growing feeling against it among Northern and border State Representatives.

Letters from Kentucky to Senators state that if an amnesty bill passes John C. Breckinridge will certainly succeed Garrett Davis in the Senate.

The State Department has received and will send to the Senate this week for ratification the naturalization treaty recently concluded between the United States and Great Britain, and which is based upon the protocol made by Minister Johnson a year and a half ago.

Fenian Affairs.

NEW YORK, May 30.—A Montreal special to the *Tribune* says information is received from the West that preparations for an extensive descent upon Niagara, Canada, are matured. Fears are entertained that the Fenians in that locality will be across before Government is ready. It has regarded the whole affair with so much indifference up to yesterday, that no thought of danger to the western lines was entertained. Nearly all the available volunteers have been called out with the exception of battalions further to the rear, and those are ordered to be in readiness.

TORONTO, May 30.—The artillery and infantry are ready for active service. The Seventeenth Highlanders will probably be stationed at Quebec for orders. Cornwall is protected by the 79th Infantry, Ottawa is garrisoned by the 30th Rifle Brigade.

MALONE, May 30.—Flanigan's and Hegel's hotel, where the officers stop, are in the possession of Gen. Meade, who has ordered the arrest of all Fenian officers, and Gen. Gleason, Col. Lindsay, Dr. Donnelly and Capt. Mann, have been marched to the guard house. The Fenian camp has been seized by U. S. troops with some 100 rifles and other arms. The Fenians gave up arms after a short search by the Lieutenant in command of the regulars. The Fenians arrested will be brought before the United States Commissioner to-day. United States troops are on the border taking from storehouses Fenian arms and ammunition. Col. Boggle and the 60th British regiment have gone back to Quebec. The volunteers now hold the Canadian frontier. Locomotives with open trucks are kept ready with steam up night and day at nearly all the railway stations where troops can be sent forward. Sarnia is protected by artillery from London and infantry from that and other districts. Ottawa is in a state of terrible and undefined excitement. Much sensation is created in consequence of a telegram from Washington announcing that Thornton, British Minister, has demanded his passports. The grand trunk brigade, ordered to be in readiness, turned out yesterday and all the men are ready. They could be shipped for any point in an hour.

BY THE CABLES

NEW YORK, May 28.—A Paris dispatch states that Prince Pierre Bonaparte is ordered by the Emperor into two year's exile in America, and will leave soon for New York. He is now under surveillance at Auteuil.

LONDON, May 28.—Communication by the French cable suddenly ceased on the evening of the 26th between Duxbury and St. Pierre. A vessel will leave immediately to repair it.

The *Times* to day says the result of the trial of O'Neil will be waited for in England with anxiety. Amicable relations between the United States and England are fully in the issue.

Advices from Rome represent the infallibilists as extremely active. During the debate now progressing, they have called on all absentees to meet as the vote is soon to be taken. Outside of the Council they are assembling in large numbers and exert a powerful pressure on dissentients.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, May 29.—The Fenians last evening raised $1,200. Col. Walsh said they could enroll and equip volunteers here and strike England, too, where it would be felt; he had written to Montana, Washington Territory and Nevada, asking how the Fenians there were situated and what they were prepared to do. He was answered from Montana by telegram, saying that Montana would send 500 men armed with breechloaders and well equipped whenever you want them, and whatever time, and also $5,000. He said he had received a like encouraging dispatch from Washington Territory and Nevada. They will be gathered when the time comes, and they will be successful, too. A meeting of volunteers is to be held Tuesday. The impression prevails that a demonstration on British Columbia is aimed at.

The schooner *Neldon* which arrived last evening from Rough and Ready reports that off Point Reyes this afternoon Capt. G. H. Lemman while hauling a lashing fell overboard. The crew tacked ship and used every effort to find him, and threw over some railroad ties but did not see him.

St. Albans Church, Episcopal, held their first service in Corinthian Hall to-day. They will secure a pastor and erect a church edifice soon.

Harry Gough and Jas. Hughes were buried with the honors of Odd Fellows and exempt firemen to-day. The funeral of Wm. Tabriski will take place to morrow.

A number of Eastern wool buyers are in the city endeavoring to purchase Oregon and California wool. Eastern manufacturers find difficulty in filling their orders and have stiffened prices considerably by their competition.

Wm. H. Aspinwall has purchased, through Badger & Lindenberger, a large lot of first quality blankets, of Oregon and California make, for the New York market, including a lot of horse blankets made to order with monograms of famous horse owners, costing $35. He pronounces these articles far superior to anything in that line ever manufactured East.

Extensive preparations are being made for decorating the graves of the Union dead to-morrow. If the weather is fair the display promised will be very fine. Police are ordered to report to Col. Coey at 12 M. to accompany the procession and clear the streets.

No preparation thus far has been made for the reception of the Boston Board of Trade and the excursionists accompanying them, and probably there will be none; an unusual apathy being manifested on the subject by our citizens generally, and the California volunteers who served in Massachusetts regiments during the war in particular.

The *Continental*, brings no news of changes worthy of mention in the political situation in Sinaloa. Placido Vega has failed to revolutionize the State. There is no advance on Mazatlan, and he will probably return [illegible] to the first opportunity if not caught and shot.

SAN FRANCISCO, May 30.—The pilot *Fanny*, while coming over the bar at four o'clock yesterday afternoon, was boarded by a heavy sea, which washed overboard a sailor named Thomas Ward. Every effort was made to rescue him, but he sank before assistance could reach him. He was a native of Australia.

The State Council of the Fenians yesterday decided not to accept the money subscribed on Saturday for a warlike movement, as the news from Canada is not encouraging. British Columbia is safe for the present.

SAN FRANCISCO, May 30.—A proposition to return to the ten hour rule of labor was considered at a late meeting of the Carpenters' League, and was unanimously voted down. On Friday evening next, the third anniversary of the eight hour organization will be observed at Platt's Hall, on which occasion Gen. Winn will deliver an address.

An unoffending Chinaman was beaten until insensible and his arm broken by women and some boys, while going along Jessie street this morning.

The excursionists who were upset by a drunken driver on the Mariposa and Yosemite route, have returned to San Francisco and are indignant at the employment of such a man by the stage company, as it is said his habits are well known. Several of them were badly bruised, but no lives lost or limbs broken. Among the passengers were Mr. and Mrs. Mitchell and child, of New York, Miss Phillips, one of our city school teachers. Miss Phillips sustained a black eye and returned to this city with a swollen face.

The Honolulu steamer is expected to arrive on Wednesday or Thursday with the Australia mails and passengers.

It is said that an assessment of $3 per share was levied on Seg. Belcher to-day. The afternoon Board was the worst held for five years; everything down. After a very short session adjourned. Treasure, 20; Jacket, 45½; Curry, 12; Occidental, 12½; Ophir, 12; Imperial, 32½; Kentuck, 47½; Chollar, 28½; Norcross, 132; Savage, 33½; Nevada, 8½.

The procession to the cemetery this afternoon was not so large as had been anticipated, and much disappointment is expressed in consequence. The meager turnout of our local and military companies was due to an insulting letter published by a member of the G. A. R., some weeks since, in the morning papers. About 5,000 persons assembled at the cemetery to witness the ceremonies, and as the procession moved along Bush street thousands of bouquets and wreaths were handed to those in the ranks, until every man had all he could carry. Platt's Hall is crowded this evening to hear the anniversary lecture by Rev. Dr Stone.

The Fenians declare they are satisfied the Canadian invasion is a dead failure, and the proposed meeting of volunteers, to-morrow evening, will be indefinitely postponed.

Wells Fargo & Co., ship to Montana to morrow, an American gold watch, made to order, by Tucker, a present from the employees of the Silver Peak and Red Mountain Mining Companies, to T. B. Helm, Superintendent. The cases weigh 200 pennyweights and the chain 100, the whole costing $600.

BY STATE TELEGRAPH.

OAKLAND, May 30.—We have information from Coos Bay. The coal mines in that vicinity are in full operation; additional hands being employed.

The steamer from San Francisco to Gardner makes regular monthly trips and calls at Coos Bay. The M. A. P. S. N. Co. are building a large steamer at Gardner.

At Ellensburg a company of San Francisco capitalists are building a large saw-mill. It will be one of the most extensive on the coast.

Several vessels have left Coquille river laden with lumber for San Francisco.

The political contest in Coos county is an exciting one, both parties are closely canvassing the county. Two Republican candidates—R. W. Simpson and D. H. Watson—for joint Representatives for Coos and Curry counties, are in the field against Lockhart, Democratic candidate. In this county the canvass has been most thoroughly conducted along the main Umpqua river by Hon. B. Hermann and James O'Dell, of Lane, for the Republicans, and Drain and Hutchinson for the Democrats.

The crops in this valley are in a flourishing condition.

Gov. Woods is here en route for Salem, where he will arrive on Friday. Hon. L. F. Grover is in this county, also, en route for home, having completed the canvass. Gen. Palmer passed through on the stage this morning, bound for Yamhill.

Crawfordsville, Ga., the home of Alexander H. Stephens, is said to be the shabbiest and most uncouth, tumble down town in the United States.

CURRENT NOTES.

Vanderbilt is said to be distributing his property to his heirs. After the manner of John Jacob Astor, he has lately transferred $5,000,000 to one of his children for the nominal consideration of one dollar.

These are among the blessings of the Pacific Railway, as shown in Chicago the other day, upon the arrival of the refrigerator car: Salmon, weighing from fifteen to thirty five pounds each, lobsters of immense size; soft shell crabs, larger than any at the Atlantic coast; cauliflowers, each head from six to twelve inches in diameter; celery of mammoth size; new potatoes; ninety-two boxes of strawberries, which cost in California $1 per quart; green peas, fresh and very large, and asparagus.

The Washington correspondent of the Boston *Advertiser* telegraphs as follows: "Senator Saulsbury has done a notable thing. After eleven years' service in the Senate, he last week introduced his first bill, which was referred to the Committee on Commerce and favorably reported. He went around this morning among his associates, and out of the good will they bear him personally, everybody allowed it to come up, and it was then passed. It gives $225,000 for building a pier in Delaware Bay."

The foreign policy under the administration of President Grant has been eminently adapted to the actual condition of the country. Every effort has tended to secure the blessings of quiet and peace. Our only chance of future trouble lies in bringing England to a settlement for the crimes of her pirates; but our case is in no ways weakened by delay. The policy which dispenses with war excitements and rumors is the only safe and sound one, and is wisely followed by the President. His policy is peace, and every interest of the community is concerned in maintaining it for some years to come.

Rev. Robert Collyer, the Unitarian, in a recent lecture on "The Theatre, the Opera, and the Church," said: "I confess that I never saw such power; I never remarked such nature in any Christian pulpit that it was ever my privilege to sit under as in Joseph Jefferson's 'Rip Van Winkle.' It is nature, not art. No sermon [illegible] in the world, except that of Christ, when He stood with the adulterous woman, ever illustrated the power of love to conquer evil and to win the wanderer, as that little piece, so perfectly rendered by this genius which God has given to illustrate in the drama the power of love over the sins of the race."

It was once thought that the timber on the shores of the great lakes and the upper Mississippi could never be seriously diminished. That fallacy has vanished, and we now find that in both regions there is a diminution of production, with an ever increasing demand. On the eastern shore of Lake Michigan in 1869, there were 1,015,000,000 logs cut; this year, but 815,000,000. On the Mississippi, about St. Paul and Minneapolis, there is also a falling off from last year, and the lumbermen are being forced into the Lake Superior and Rainy Lake regions to supply the market. Timber is nowhere inexhaustible but on the Pacific coast from the mouth of the Klamath to Puget Sound.

It seems that the nation has another destitute widow on its hands, whose case appeals most strongly for sympathy and aid. Mrs. Gen. Thomas is said to have been left in [illegible] circumstances, and her situation calls for an exercise of the same liberality which was extended to Mrs. Stanton and Mrs. Rawlins. Gen. Thomas was obliged to rely solely upon his pay during all the time he was in the army, neither he nor his wife having other resources. We can readily understand that under such circumstances the widow should be left poor. The Washington *Chronicle* says: "This is not a Government which provides munificently for the families of its heroes, and although Mrs. Thomas is far too genuine a lady to ever let escape a word of complaint, it is still apparent that her comfort in future will depend more than has been generally supposed upon the generosity of her friends."

A recent number of an English review most truthfully remarks: For the few authors whose names are familiar to the world, there are, as in every calling, myriads who are never heard of beyond their private circles. They have swarmed from the hour when printing and reading became common; but as Pope and his cotemporaries were the first to drag the tribe of underlings into public view, many circumstances are often assumed to have been peculiar to that time which had long been the standing condition of things. Swift, in his "Hospital for Incurables," calculates that provision must be made "for at least 20,000 incurable scribblers," and adds, with his usual savage satire, that "if there were not great reason to hope that many of that class would properly be admitted among the incurable fools, he would strenuously intercede to have the number increased to ten or twenty thousand more."

Mr. Graham's argument in the McFarland case proved too much. He maintained first, that Richardson's offence was such that he [illegible] death, and that McFarland in coming to the conclusion to shoot him reasoned correctly and logically, that is, as a sane man only can reason; and second, that McFarland was morally insane, was incapable of reasoning correctly, and was led to an act for which he would have deserved hanging had he been sane. In other words McFarland is to be proved insane in order that he may not be held responsible for an act which was morally justifiable. Since Richardson is in his grave there was no reason for proving his guilt except to show that his murderer was justified in killing him; and if McFarland was insane at the time of the murder there is no necessity for any other defence. It is a serious attempt, as was first suggested as a joke, to make out a case of "justifiable insanity."

TUESDAY MORNING MAY 31 1870

Dawn of a New Day Upon British Manufacturers

It is a sat [illegible] rule never to do what an enemy or rival wants us to do There is an excel [illegible] the appl at [illegible] of this rule [illegible] present discussion [illegible] free trade

There are [illegible] British manufacturers are [illegible] greatly [illegible] the [illegible] pect of legislation in this country that will break up the American [illegible] and restore to them their former monopolies The *[illegible] Telegraph* published at Sheffield a place of great manufacturing celebrity reveals the secret of the elation of British manufacturers by saying "If gold goes to par and the tariff of 1860 is re-enacted *we are very [illegible] manufacturing [illegible]* [illegible] as the Washington [illegible] deserves opens a brilliant future to the English manufacturers for says the same writer *when the new day dawns they will not have wealthy corporations to meet, as was once feared* This day which is expected to dawn for the benefit of the English manufacturers, is to be the setting down of night upon their American competitors The ruin of American manufacturers, putting an end to competition will enable British monopolists to run up prices so high as to pay them enormous profits

The adoption of the policy of free trade in Great Britain brought with it a train of poverty and distress upon the masses of its people It brought upon the English people a period of financial gloom which was rendered deeper by the tariff which our war and its results compelled us to impose for revenue to support our Government If now we can be induced to come into the policy of free trade, financial night will begin here with a likelihood that there will be sunshine in the other hemisphere

As relations now exist between us and transatlantic people, our loss is their gain and *vice versa* A policy like our proposed reduction of the tariff to the proportions of limited revenue alone which gives elation to our British rivals produces depression among us Unless we wish to make ourselves examples of self-denial and self sacrifice such as has had no parallel among nations, we should avoid a policy which, however beneficial it may be to Great Britain is most detrimental to us

A "Base Libel" Considered

Let it be recorded for future reference that Jas D Fay defended his disgorgement letter in a speech at Willow Springs in Jackson county May 18 1870 and that he is willing to destroy his party by the promulgation of as base a libel on it as ever has been uttered in a political campaign Let it be recorded — *[illegible] Democrat*

To ascertain whether Mr Fay's position is a "base libel on his party or not let facts be submitted and duly considered

The repudiators were in a large majority in the Albany Convention The Committee on Resolutions reported an article pronouncing in favor of direct repudiation This was reported by eighteen of the twenty members of the Committee A minority report was presented by the members of the Committee declaring against repudiation, which was tabled in the Convention by a vote of two to one. Some changes were then made in the phraseology of the repudiation resolution and it was adopted Those changes did not materially alter its meaning The repudiators in the Convention said that the resolution in that shape would be satisfactory, inasmuch as it embodied the substance, the vital part of the original resolution At the time it was adopted, and afterwards, it was considered as a warrant both for repudiation and for "compulsory disgorgement." All the speakers and journals of the party came out for that interpretation The *Herald*, the State organ, elaborated it in a series of lengthy articles Mr Slater and Col Kelly advocated the same doctrine in their speeches. There would have been no change of programme had not defeat appeared certain unless a change were made Then most of the speakers and journals attempted to go back on the doctrine Mr Fay however still adheres to the ideas that prevailed in the Convention, that were embodied in the platform, and advocated by all the orators and the whole press of the party with one exception, during the early stages of the campaign Mr Fay has not shown himself more willing to "destroy his party" than the *Herald* Col Kelly, and Mr Slater have done With these facts before the people they can judge whether it is a "base libel" to say that the Democratic party of Oregon is committed to and in favor of repudiation, or not

The Two Parties

Political parties, it has been well said grow up around ideas and wants A free people support a party and entrust their government to it because they approve of that party's policy and think that on the whole it governs wisely and well For these reasons the people of the United States have repeatedly declared their confidence in the Republican party During the past ten years they have deemed it the only party to which the control of the country could safely be entrusted. The Republican party embodies most of the liberal progressive elements of the country and the same growth progress and development which have hitherto characterized it will attend it in the future The idea, as a contemporary says that such a party composed of such elements can have already completed its mission is preposterous Changed as the political situation of 1872 will be the party will easily conform itself to it, as it responded to similar requirements in the past The process is already going on We are clearing away the *debris* of the rebellion and letting it drift from us The fact that old issues have been decided does not necessarily affect the vitality of the party New issues are supplying their places and new ideas and new measures are urging us forward No party that expects success or is worthy to control the country will cling to the past but will move on in obedience to destiny and to the spirit of progress that controls our age Right here is proof that the Democratic party cannot answer the requirements of the times It has no ideas to announce and no principles to contend for The kind of warfare it is carrying on in Oregon an irregular warfare without a definable purpose to accomplish — is just the kind of warfare it is carrying on in all the States It is a sort of guerrilla opposition and that is all there is of it

Col Kelly came down the river yesterday Monday from the Dalles It is stated that he brought down four men from Yakima with him whom he is going to send into Polk county to vote the Democratic ticket Republicans up that way would do well to look out for them These Democratic managers will stop at nothing to defeat the will of the people

Editorial Notes

The opposition papers don't expect their statements to be believed [illegible] they invariably put them in the form of affidavits This [illegible] has been carried so far that their affidavits have come to be regarded as the most doubtful stories they tell

On the [illegible]th inst the tariff bill was indefinitely postponed in the House for this session of Congress which action will leave the present tariff [illegible] We [illegible] Mr Smith [illegible] the [illegible] of the Democrats [illegible] postponement this signif[illegible] the desire to keep up the present [illegible] tariff so [illegible] which [illegible] have so much to say about

Is there no such thing as [illegible] in the [illegible] press It would seem not The organ at Albany lets off these choice and refined expressions The ignorance of the boor the vanity of the dotard the shamelessness of the pimp the heartlessness of the brute are elements that go to make up the character of the Radical candidate for Governor The person who would write this and then chuckle about having done a smart thing is just fit to conduct a repudiation organ

Here is one of the reckless and defamatory charges uttered against Gen, Palmer by the opposition press There is no longer any room to doubt that the Radical candidate for Governor was in actual complicity with the Indian murderers of the Whitman family Could partisan rancor go farther than this? Could malice and mendacity be more signally displayed? No longer any room to doubt indeed The most besotted Democratic partisan in the State will deride such an assertion

The Albany *Democrat* has something to say about the Radical party trying to "destroy the Democratic party by forcing it into a position that it has never occupied in any State, that is into a position in favor of repudiation But the "Radical party has not tried this forcing process The Democratic party voluntarily declared for repudiation We have shown repeatedly that even that party has not taken a similar position in any other State Hence the greater infamy of the Albany platform and the greater the disgrace of Oregon if it is not defeated.

The *Statesman* says that John F Miller of Salem, the retired artist in Indian vouchers, is making frequent journeys to the classic regions of Yamhill, and inquires "Will the Democracy give the true facts in the case as to whether his acres are divided by the line which separates the two counties and that he has houses on each side the line filled with imported voters who alternate their bed and board and washing (that is if they are not too Democratic to indulge in the last mentioned luxury) so as to make an election raid upon whichever county needs most their aid to secure a Democratic victory or to divide the force to carry both if that result can be effected Such is the report we received from there, and yet such men as he prate of political honesty "

The San Francisco *Bulletin* says There was found recently in Alameda creek, the tooth of a mastodon firmly imbedded in a mass of conglomerate rock It was evidently at one time completely encased but the rock has been gradually worn away so as to leave the tooth standing as if in the jaw of the animal itself These traces of past ages have been frequently picked up in Livermore Valley where this creek has its source

The Virginia (Nev) *[illegible]* says Mr Russell of the Summit House Ophir Grade has a cow now eighteen years old that has given milk for six years, summer and winter without having had a calf during the time. She is still going ahead as usual and yields as much of the lacteal fluid at each milking as the average of cows—in fact is daily gaining upon her work during the winter as the bunch grass improves on the hills "

Of Wordsworth's "We are Seven" a critic writes "The main idea seems to be A lament in an elegiac system strain over the loss of the special vividness of youthful sympathy with the objective universe, followed by a [illegible] after thought of reconciliation with the lot of the maturing man through the deep philosophic consciousness that has supplanted the spontaneous order of childhood One is struck by this when reading the poem

A dispatch from Jacksonville May 24 says The political excitement is daily becoming more intense the most vigorous efforts are being made by both parties to carry the Legislature ticket Several candidates have withdrawn from the regular Republican ticket and their places have been filled with Democrats

The N Y *Herald* says It is affirmed that the Pope's late schema was simply another way of spelling sachem a word with which our readers are, of course very familiar So far as a Tammany sachem is concerned a Young Democrat thinks it ought to be spelled "schemer"—and a very adroit one at that

POLITICAL NOTES

One of the Democratic speakers in the county canvass last week said repeatedly that his party wanted [illegible] men to vote with it That [illegible] was simply making a virtue of necessity as he well knew that no colored man would do [illegible]

The *State Journal* reports that Mr Grover [illegible] the Salem woollen mills was in Eugene City last week wool gathering but while there on that errand he wandered from his legitimate business and made some remarks on the Governorship

At the recent municipal election in Virginia [illegible] (Nev [illegible] white Republican [illegible] for Mayor [illegible] 64 votes and [illegible] colored) Democrat received 20 The Democrats voted for [illegible] but the colored Republicans [illegible]

Democrats up at Salem have been proposing to bet that Grover would be elected by 500 and Slater and Patterson by 250 majority The difference in these figures is suggestive Does it indicate the extent to which the Salem ring propose to trade [illegible] Slater and Patterson for their pet Grover?

The honest Democrats of Jackson county who refuse to support the odious and infamous doctrine of repudiation have united with the Republicans in making a ticket to run against the regular repudiation [illegible] and [illegible] It is believed that this People's Ticket has a fine chance of success

Samuel Townsend, a member of the Democratic National Committee for Delaware has pronounced the Democratic party defunct and resigned his place on the Committee Now that the fifteenth amendment is ratified, "our cup of disgrace," he says, "is filled to the brim The party which though opposed was unable to prevent this and is equally unable to repeal the amendment is dead to our wants and may as well be buried

The Cincinnati *Gazette* in commenting on the repudiation platform of the Democracy, so called of this State observes that the money which Oregon needs for its development will not be likely to be attracted here if it is known that it is the deliberate conviction of citizens that debts may be repudiated. The *Gazette* adds "The welfare of the State seems to demand that such a platform should be voted down. The Democrats would act wisely to join the Republicans in doing it

The Albany *Democrat* is determined not to forgive Mr James D Fay for defeating its aspirations for the State Printership Its issue of Saturday last is almost wholly devoted to attacks upon him We are to remember, that Mr Fay is a better Democrat than his assailant He has been "endorsed" by his party and the paper that assails him has been snubbed and rejected He has a nomination and it has none. He goes for repudiation and it pretends to oppose the doctrine Which of the two has the better authority to speak for the party?

Oregon

[From the San Francisco Bulletin]

It is cheering to notice the rapid strides that our sister Pacific State is making in the direction of healthy and permanent prosperity The construction of the great trunk railroad through her central valleys, from the Columbia to the California line soon to be connected with the Pacific Railroad, both by way of Idaho and this State the multiplication of manufactures and natural products the enlargement of home commerce the greater amount of land under cultivation the growth of towns and the enhancement of real values the quickened demand for land, and the influx of immigration—these are all circumstances which the telegraph reports daily, and which makes up a record of substantial progress The fact is that Oregon, in common with California, is just entering upon a career of such prosperous development as marked the history of several of the Mississippi States in the decade following 1850 This was delayed twenty years by the remoteness and isolation which have been ended at last, and by the completion of the Pacific Railroad and the construction of local branches

There is no more orderly and economical State in the Union than Oregon All its growth has been gradual and healthy, for while it possesses great mineral resources it has never been demoralized by great mining excitements With an area larger than that of Pennsylvania and New York combined half of which is adapted to agricultural and grazing purposes, and the remainder valuable for its famous timber it has yet scarcely 120 000 inhabitants, and not over six per cent of its arable lands have passed into private ownership while hardly two per cent. is under actual cultivation Most of its arable land is in a series of valleys well watered fertile and picturesque It is a great wheat State Its apple orchards are not equalled anywhere in the East, and its climate favors a greater variety of products than any of the Northern States It has mines of iron and coal as well as of gold, silver copper and lead

Such a State is a good one to advertise, and we are glad to know that the Board of Statistics Immigration and Labor Exchange of Portland is advertising it in a very honest and effective way The publication of a pamphlet of sixty two pages treating comprehensively of the State as an agricultural and commercial region, and giving succinct information about its climate people market price of land wages cost and routes of travel industries resources and improvements is a work in the right direction It is evident that California and Oregon are to be honorable competitors in stimulating emigration westward the gain of one will be measurably the gain of the other The railroad will soon unite them and make their interests nearly identical

Parties going up the Columbia and stopping at The Dalles should not fail to stop at the Umatilla House Handly & Sinnott Proprietors it being the best and only First Class House in the city

Gibbs and for the whole Republican ticket, and three hearty cheers were given for Mr Tom [illegible] who is now working with a will with the Republican party [illegible] on this occasion furnished a magnificent [illegible] for the whole assembly The meeting was a glorious success for the Republicans and will add to their majority in old Multnomah county

NARROW ESCAPE Yesterday when the work [illegible] on the east bank of the river quit work for dinner two who were a little behind the rest, [illegible] to make time ascended the bank on a slight ridge over a drift and thus gained the top, but they had not proceeded one hundred feet away when the ridge upon which they had been walking gave way and tons of gravel fell into the cut below The event was seen by several persons on Couch's wharf but the [illegible] themselves are perhaps not yet aware of the narrowness of their escape from a [illegible] which might have proved fatal in its effects

CITY.

THE MASS MEETING AT POWELL'S VALLEY.—Notwithstanding the unpromising weather yesterday a large concourse of people assembled at Powell's Valley Camp ground to listen to the speeches by Gov A C Gibbs and Hon John H [illegible] upon the political issues of the day. Notwithstanding it had been announced by posters and otherwise that it was to be a Union Republican meeting, John H Smith Democratic nominee for County Judge, Nat Lane and two or three other persons from the neighborhood of East Portland appeared upon the ground and claimed they were entitled to divide the time with the Republican speakers, which proposition was accepted as a matter of courtesy by the Republicans. The meeting was opened by Mr Caples who commenced by stating that although this was intended as a Union Republican meeting yet as Mr Smith and others were present and as the Democrats seemed unable to get up a meeting of their own the Republicans had concluded to give them half of theirs. Mr C then proceeded to make a masterly speech of an hour and a quarter in length, replete with eloquence, sound argument and wit, which was listened to by all parties with [illegible]. At the close of his address Mr [illegible] Mr Smith amongst other things [illegible] to state to the people how much of the $50 000 which he went to San Francisco in 1862 in order to take Oregon out of the Union he had spent in this campaign. Mr. Smith took the stand and amused the Republicans and chagrined the Democrats by going through the usual Democratic twaddle of [illegible], China citizenship etc but was evidently laboring under a cloud. He declined to say anything in reference to the $50 000 Secession fund. [illegible] his retiring from the stand a faint effort at [illegible] was made by the East Portland delegation and two or three other Democrats which [illegible] still born and the delegation soon left in disgust.

Gov. Gibbs then took the stand and for [illegible] held the audience as [illegible]. In a few minutes he had completely answered and overthrown the positions and arguments of Mr. Smith, and then devoted himself to the great issues before the people. During his speech he was frequently applauded and never [illegible] better convinced that the Republican party is the party of progress and its principles [illegible] have and will save the country. [illegible] have just reason to be proud of their candidate for District Attorney [illegible] he cannot fail to be elected by a [illegible] majority. At the close of his [illegible] tremendous cheers were given for [illegible] and for the whole Republican ticket, [illegible] hearty cheers were given for Mr Tom [illegible] now working with a will with the party, and who on this occasion furnished a magnificent free dinner for the whole assembly. The meeting was a glorious success [illegible] and will add to their majority [illegible] county.

[illegible] RELIEF SOCIETY.—An informal meeting of [illegible], interested in the organization of a Firemen's Relief Society was held at [illegible] Chamber last evening. Mr [illegible] was called to the Chair and Mr [illegible] Secretary. The object of the meeting was then stated and the signatures to the call read when on motion of Mr A B Hallock a committee of [illegible] Company together with [illegible] was appointed to draw up a [illegible] by-laws for the government of [illegible]. The following were then so appointed [illegible] of the various Companies: Willamette Engine Company No 1 [illegible]; Multnomah No 2, A B Hallock; [illegible] Al Zieber; Protection No 4 [illegible]; Hook and Ladder Company No 1 E D [illegible] and R. Holman, Chief Engineer. [illegible] adjourned to meet again in two [illegible].

The board organized by [illegible] S G. Reed, President; J R Bay[illegible]; J. B. Underwood, Secretary; [illegible] Treasurer. Two of the Board of [illegible] Dolph and Stratton — and [illegible] filled by the election of W H [illegible] W. S. Ladd. It is understood that [illegible] Mr. Reed will resign [illegible] and Mr. Ladd will be elected [illegible] of the stockholders the [illegible] Company was removed to Portland.

[illegible].—Yesterday when the workmen [illegible] bank of the river quit work for [illegible] were a little behind the rest, [illegible] ascended the bank on a [illegible] drift, and then gained the top, [illegible] one hundred feet away [illegible] upon which they had been walking [illegible] tons of gravel fell into the cut. [illegible] was seen by several persons on [illegible], but the laborers themselves are [illegible] unaware of the narrowness of their [illegible] which might have proved fatal.

[illegible] BANKRUPTCY.—Upon application of [illegible] of M Moskowitz process [illegible] out of the Court of Bankruptcy [illegible] served upon the party summoning [illegible] why he shall not be adjudged [illegible]. Assignment of his stock having [illegible] and that warrant was also [illegible] the U S Marshal take possession [illegible]. An inventory was being [illegible] of the goods on hand by order of [illegible] by virtue of the warrant.

[illegible] WANTED.—A ship load of dogs in this [illegible] time would be the finest [illegible]. The dogs, however, [illegible] be of a kind that could make a [illegible] about forty each of the abominable trash [illegible] running in the city. We have seen it [illegible] that the keepers of dogs are [illegible] of an outlandish character [illegible] from dogs something as effluvia [illegible].

[illegible] CALIFORNIA.—From nearly every [illegible] of California has been received alarming [illegible] of short crops. In Santa Clara [illegible] will be only half of the grain crop [illegible] will not pay for harvesting. In Suisun [illegible] north winds and dry weather have almost [illegible] the crops. More favorable reports [illegible] the northern portion of the State.

We understand that about one thousand [illegible] received by the gentleman which [illegible] the tickets are very readily sold.

[illegible].—An old man was put into the city [illegible] in a drunken stupor and while in [illegible] the bedding on fire. The act was discovered [illegible] in time to prevent a conflagration but [illegible] was in a suffocating condition when [illegible] from the smoke and put into another [illegible]. He thought perhaps that he should be able [illegible] if he set the jail on fire.

PUBLIC SPEAKING.—Every evening during the [illegible], commencing with to morrow evening, there [illegible] public speaking at the Court House. As [illegible] elsewhere Judge Tyler will speak on [illegible] evening. On Thursday evening Mr [illegible] will speak; on Friday evening J H [illegible], Esq; and on Saturday evening Hon J [illegible].

[illegible].—The Columbia river is now beginning [illegible] and roar in places, and the rise is [illegible] the highest stage attained at any [illegible] period this year. At this point yesterday [illegible] water from the Columbia was three [illegible] above the mark of the 15th which was the [illegible] this season here.

[illegible].—Two or three heavily loaded barges of [illegible] have arrived along the wharves of [illegible] three days past, from points in [illegible]

The poles were being distributed and planted and the wire stretched yesterday so that by this evening the distance will be reduced to about two miles. The line would have been completed last week had the poles been promptly delivered along the line. Their detention was attributable to the interference of the high water.

Duluth

(From the Chicago Republican)

Duluth, an embryo city at the head of Lake Superior has a newspaper—the *Tribune*—the first number of which has just reached us. It has very much the appearance of the first paper printed in Chicago, in 1833 and is well edited. The place had but one house a year ago, but is already a village, and great things are claimed for it, when the railroad from St Paul is completed, which will be in July next. Like Chicago the town is the head of lake navigation but, unlike it is too far north to have much country directly tributary to it. While it may become something of a grain mart, the chances for great commercial growth do not strike us as very serious.

Lake Superior lies about midway between the pole and the equator. No mountain ranges interpose to break the force of arctic winds, or temper the extreme heat of a very short summer. The seasons, from frost to frost, do not exceed three months, and vegetation is dwarfed by the excessive cold. The lake is the playground of tempests, where arctic and tropic air currents meet and wrestle, and hold high carnival for about eight months in each year. All its surroundings are stern and rugged, yet, as a summer resort, a trip to the country is full of charming interest. Whether it can ever be made a great highway of commerce is much more than doubtful. Aside from Marquette whose entire interest is comprised in the shipping of iron ore and Houghton, Hancock, and Ontonagon which have grown up from copper mining, it has no large settlements and even these are but moderate sized villages. It has neither agriculture, nor lumber about it, and its atmosphere is permanently 10 degrees colder, in ordinary weather, than that in the region bordering on its basin. One of the announcements in the paper before us of May 4 is that the ice had just drifted out of the bay but was still in sight lodged on the south shore so that navigation is but just opened and it is more than probable that it will close every season before a grain crop could be shipped if one were raised in the portion of Minnesota whose trade it will command.

We trust a flourishing place may grow up at Duluth notwithstanding the drawbacks of latitude and that the enterprise of the *Tribune* may be amply rewarded. In the present limited settlement it is a truly adventurous and problematical work to start a newspaper at that point and the editor is deserving of all praise for his enterprising effort.

THE ART OF LYING IN STATISTICS.—The Philadelphia *North American* May 3 has the following:

Efforts to belittle the iron interest of the United States begun by Revenue Commissioner Wells in his annual report have been systematically continued by all the free trade writers and speakers. Thus one writer speaks of the value of the iron and steel made in the country and the manufactures thereof as only $119,950 000 whereas the true value as calculated by the American Iron and Steel Association is *seven hundred and fifty millions of dollars* a year! This is six times the amount stated by the *Free-Trader*. It would naturally be inquired how could such a false estimate have got into print? Here again, we have to go back to Mr Wells. It seems that the Commissioner in order to exaggerate the importance of the New England boot and shoe interest and to belittle the iron trade collected the entire value of all the boots, shoes, hides, leather, harness, belting, hose, portemonnaies and every other thing [illegible] connected with that trade and then put against it only the value of the pig iron with the increased value given to it in the rolling mills and forges which was manifestly unfair. The *Free Trader* goes a step further and copies this statement, and then represents that the iron estimate includes also all the manufactures of iron, which is a deliberate falsehood. We have given the real figures for all the products of iron at $750 000 000 annually. But it would not have exactly suited the purpose of Mr Wells and the *Free Trader* to state this.

A similar trick is played off with regard to the number of persons employed, which the *Free Trader* gives only 130 000 for the great protected industries of iron, woolens and cottons, whereas in iron and its products alone there are fully 700 000 persons employed and 3 200 000 persons directly supported thereby. All the free trade figures and statistics are doctored up in this way. Mr Wells set the example and all his admirers follow suit.

An Indian near Fort Scott, Kansas recently traded two mules for a set of false teeth, and proudly wore them, necklace fashion.

OREGON

According to the Eugene *Guard* Nesmith is about to engage in a little [illegible] draw at Corvallis and Eugene.

The Republicans of Powell's valley had a grand rally yesterday, speaking by Gov Gibbs and others. That precinct has all along been Democratic, but a careful canvass now gives a Republican majority of six or seven.

We have received a full account of a glorious ratification meeting by the Republicans of Ochoco valley. Speeches were made and a series of resolutions adopted ratifying the nominations of State and county and warmly approving the platform. Our correspondent says the precinct will give twenty Republican majority notwithstanding the outrageous conduct of the County Court (of Wasco) in Gerrymandering the precinct and appointing only Democrats on the board of election judges. Make way for Ochoco.

In opposition to the regular repudiation Democratic ticket in Jackson county the following fusion ticket is in the field: State Senator Alex H Martin D; Representatives J C Campbell R, Orsen Stearns R, [illegible] Greenman D; Sheriff Wm A Owen D; County Judge C M Kahler R; Clerk Max Muller R; Treasurer [illegible]; School Superintendent Wm Turner R; Surveyor J S Howard R; Commissioners John Bilger R, Wm Childers D; Coroner Dr [illegible]. There is a strong probability that portions of this ticket will be elected.

An additional lot of [illegible] by everybody, both heavy and light weight, were received by [illegible] A Fishel No 91 Front street. They are equal to the best custom made and pleasing to all that wear them. They have received an extra [illegible] and Star [illegible].

Infection in the Air.

Experimental chemists have repeatedly analyzed the air at unhealthy seasons, in the hope of detecting the invisible virus which produces epidemic disease. They have not yet discovered it and scarcely any two of them agree as to its nature. This is of little consequence. It is sufficient to know that this poisonous principle exists and that a safeguard against its insidious influence has been provided. In the spring and early summer when fever and ague, remittent fever and other periodical diseases of that class are prevalent it is only necessary to fortify the system with a course of Hostetter's Stomach Bitters to escape them. If this precaution has been neglected, which it never ought to be in any district liable to such visitations, and if the paroxysms of malarious fever have actually commenced, and may always be checked and broken up by a course of that powerful vegetable tonic and alterative. Quinine was once considered the only specific for chills and fever, but it is now generally admitted that this pernicious alkaloid is a dangerous medicine and that its secondary effects are more to be dreaded than any form of intermittent fever. It is simply a treacherous astringent. It does not touch the disordered liver or regulate the bowels or in any way improve the condition of the animal fluids. Hostetter's Bitters on the other hand, in addition to being a better and safer tonic than any preparation of quinine, has a balsamic effect upon the whole system. It is aperient and antibilious as well as directly invigorating and purifies the secretions as well as regulates the secretive organs. It stimulates the appetite, strengthens the stomach, soothes the nerves, promotes healthful perspiration and induces quiet sleep. As a[illegible] it has [illegible] rival. Cases of indigestion that [illegible] seems capable of [illegible] are cured in a few weeks by its regular use.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, has tempted the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can be easily detected after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G VENARD.

The McFarland Case—Affidavit of Schuyler Colfax

New York May 1 — Schuyler Colfax's deposition offered and excluded in the McFarland trial is published It details many interesting circumstances connected with the affair especially the Indiana divorce Colfax says

I had no agency or connection directly or indirectly in her application for or procuring the divorce from McFarland in Indiana She applied to me by letter about a year I think, after the separation, for letters of introduction to persons in Indianapolis As it has been my daily practice for years to give letters of introduction to all my personal friends and believing her then, as I do now worthy of such a letter of introduction I sent her two one addressed to a former colleague in Congress A G Porter and the other to an old friend T P Hughes I cannot recall the contents of those letters except I think I spoke of her as a lady in deep distress and worthy of esteem but although I supposed from having heard that her separation from her husband was final that she went to Indiana to obtain a divorce I gave no testimony in those letters on the subject, as I had no knowledge of my own about it and knew it must be decided by the evidence submitted in Court when it came on for trial, if such a case was commenced Richardson never asked me for any letter of introduction in Indiana that I remember

A day or two after the first shooting of Richardson by McFarland I was passing through New York I called at Sinclair's residence, where Richardson was to see him I found Richardson in bed, and apparently in pain. I told him how it saddened me to find him involved in such a matter and suffering the consequences He replied by asserting that there had been nothing criminal in his relations with Mrs McFarland During a part of the conversation which lasted probably half an hour, Mrs McFarland was present She took no part in the conversation and was weeping part of the time In the same conversation Richardson stated to me that if she obtained a divorce from her husband he intended to marry her, if she would accept him as he believed she would make his life a happy one He did not ask me to aid in procuring the divorce, and I supposed from the reference he made to Connecticut and its laws that a divorce would be applied for in that State by her She never at any time stated to me that she contemplated marrying Richardson after obtaining a divorce, but I think she was present and silent when he made the remark that if she obtained a divorce he intended to marry her if she would accept him I was never instrumental in procuring employment for her, with or without emolument, nor was I every asked by her, or any person in her behalf, to do so I did not know that she contemplated going to Indiana until I received a letter asking for letters of introduction at our State Capital Neither Albert D. Richardson nor Abby ever went to Indiana in my company, at any time or for any purpose. I[illegible] nothing to do with the suit for divorce, and was not asked by any one to interfere in it. I did not know the Court in which it was to be commenced I was not present, was not a witness and did not know what testimony was to be given nor do I know the name of the Judge who tried the case."

The 'New Party' Mistake —Certain editorial gentleman who visited this city recently have free trade on the brain, and labor under the impression that they can build up a new party based entirely upon that doctrine They held public and private conferences were flattered and complimented by Democratic politicians, and feeling assured that they were about to accomplish great things and astonish the world, returned to their respective homes in a high state of satisfaction

The idea of a new party to be formed upon the free-trade principle is exceedingly grateful to the Democratic mind The know it will not take one man from the Democratic fold, and that the Republican gudgeons who swallow the bait will find themselves on the Democratic string The movement is in every respect for the benefit of the Democratic party and this is so obvious that it would require a vast amount of charity to suppose that the editorial gentlemen in question do not understand and desire such result

But we predict its utter failure The attempt will be made and while in some localities it may injure the Republican party temporarily, in others it will be substantially strengthened and the principal consequence will be that a few journals now nominally Republican will find themselves in the Democratic party, which to the Republicans will be good riddance and great gain Come gentlemen, move on! The sooner you sail under your true colors the better for the country and the Republican party —*Wash Chronicle*

It Means Repudiation.—The Albany *Register* says

We have stated that fourteen of the seventeen delegates to the State Convention from Linn county were in favor of the platform as at first reported to the Convention and it has not nor can it be truthfully denied Dr Alexander, Democratic candidate for State Representative, was strongly in favor of the repudiation clause, and remarked during its discussion or immediately after its adoption that's what you have all got to come to at last And we don't believe the Doctor will deny that he favors repudiation to-day A large number of the Democrats of Linn county are dissatisfied with the course taken by their paper, and many of them have ordered its discontinuance Leading members of the Democratic party have asserted in our presence that if the original interpretation of the 8th resolution had been adhered to and proclaimed throughout the State the party would have been all the stronger to-day The many definitions given to "equitable adjustment to meet the requirements of the different sections of the country, has disgusted men of sense who openly avow their contempt for a party with as many different policies as there are precincts Curses loud and deep are rained upon the heads of those who have been instrumental in bringing about this state of affairs, by those who still adhere to the waning fortunes of this party of a [illegible] policies

Points —The Chicago *Times* expresses the opinion that the Republican party is sorely in need of a future or in other words that its chief necessity just at present is the development of a broad and symmetrical policy upon which the party can be nationalized The *Republican* responds as follows "This remark is just, albeit it expresses a Democratic doubt that the party will successfully solve the problem before it These vaticinations are unfounded A party which has accomplished so much and in so short a time must have sufficient vigor left to make all the necessary preparations for pushing its victories The Republicans will secure a future and a very brilliant one On the other hand, the Democratic party not only needs a future but a present It has a past which it had far better be without and which it would gladly bury in oblivion

Judge Roosevelt of the New York Sportsmen's Club, is a rare wag A gentleman leaving the company at a recent dinner [illegible] who sat next the Judge asked who he was I cannot exactly tell you sir he replied with a meaning look and I should not care to speak ill of any person whom I do not know deserves it but I am afraid he is an attorney

It is announced that [illegible] has espoused the cause of female Suffrage and intends to make it plank in the next platform of the Old Democracy What the women friends of this measure [illegible] to have such an affront put upon them is not reported The same person recently lectured in favor of introducing the Bible into all schools but [illegible]

[illegible] a negro since he has become a citizen and a voter The Detroit [illegible] *Free Press* [illegible] important interest to A W [illegible] who is said to be a very black man and who is hereafter to be the managing editor of the concern

FINANCE AND COMMERCE

Portland Monday May 30 18[illegible]

[illegible]

The week has passed with a rather quiet business in most departments of trade There was an inquiry for agricultural [illegible] with small sales mostly to buyers for their own use and very few to the trade In like manner there have been small sales of Hardware to parties who are building in and near the city Dealers in both lines have been rather busy through the day though the aggregate of sales does not foot up very largely Dry Goods—Business in this line has been much more quiet than during last week There are no buyers to speak of on the market Groceries—In this branch of trade there has been about the usual activity [illegible] the bonds pretty well employed [illegible] for shipment

[illegible]

The Chicago Wheat Market.

From the Chicago Republican May 12]

The [illegible] in the financial and commercial circles during the past few days has been relative to the price of wheat Indeed the course of the market within a year past has surprised nine out of every ten men at all interested in the value of this commodity and it is for this reason that we have compiled the following resume of the market for a year past It is possible and very probable that it will be some years before so much uncertainty relative to futurity will take possession of the minds of the masses, and our resume cannot but prove interesting Turning back to May 12 1869 we find that No 2 spring wheat was sold in this market at $1 19¼@1 14 with gold at 143¼ On May 14th it touched $1 1 but immediately advanced to $1 14½ [illegible] The market fluctuated between $1 09@1 16 until June 17 when a gradual rally advanced to $1 [illegible] on June 23 but receded to $1 16 on July 29 From this point the market advanced with only an occasional reaction to $1 40½ on August 13 This was the highest price reached during the year From this date the market gradually weakened and on [illegible] it sold at 88c per bushel A slight reaction occurred, however and two days thereafter sales were effected at $1 04¼. This was only a bulge and temporary at that [illegible] we find that on [illegible] was the ruling figure It touched $1 03 again on the 19th but at this point the decline proper set in and continued until Nov [illegible] sales transpiring on that day at 85¼ On Nov 24 the ruling figure was 91c, and the market fluctuated for a few days between 80½@91c On Dec. 31, 1869 the price was 77¼c. Five days thereafter, or on Jan. 5,1870 the price had fallen to 74¾c per bushel but this was only temporary the price gradually advancing to 82¾c Jan 22 The market ruled without decided fluctuation until March 14 when the price had a downward tendency and gradually receded to 74 [illegible] on March [illegible] On April 23 the market had advanced to 79¾c but again reacted, this time touching the lowest point reached in many years viz. [illegible] on April 9 The market ruled quite steady until about April 16 when the recent advance set in which continued almost steadily until $1 01 had been reached on May 11 To day the market closed at [illegible] Thus it will be seen that the extreme prices during the year ending to-day were 73¼c@$1 4 [illegible] per bushel

The following statement of crop prospects in California from the Sacramento *Union* If it be entirely correct would indicate a short yield in that State and better prices

"The very unfavorable weather of the last month has greatly diminished the chances of an average grain crop on all the uplands and high valleys throughout the state outside of the influences of the ocean fogs. The best fields of Summer fallow which a month ago looked as if they might overgo an average yield are now drooping, and must fill out imperfectly in the heading and grain All through the San Joaquin valley but especially on the light alluvial soil and sandy plains, west of the San Joaquin river and south of the Stanislaus there will be hardly enough harvested for seed Most of the fields planted after December will yield nothing at all Many of them are as bare as the foothills in July and not one in five will pay to cut That part of Livermore valley lying next to the San Joaquin is not much more promising The western border of it, where the fogs were denser shows better We cannot say from personal observation what is the condition of the crops south of the Stanislaus but common report concurs that they are not much better than along the line of the Western Pacific Railway If this be true there will not be a quarter of last year's yield in the counties of Stanislaus Merced and Fresno This would cut off not less than four million bushels from last year's grand aggregate Added to the partial failures elsewhere it is not extravagant to estimate that the crop this year will be 5 000 000 bushels short of the average. This is a great loss and will occasion some local distress; but there need be no fear of that general suffering, and of the famine prices of bread caused by the drouth of 1864. That year, it will be remembered was preceded by one of partial failure, and there was no supply left in the country In 1863-64 there was not one acre planted to five this year In 1870 we have a large surplus on hand from 1869 and the area planted extends to all sorts of land Along the sea coast on the hills as well as in the valleys there is a large space covered by wheat and generally, as far south as the Salinas plains it looks very promising So, too, on all the naturally wet lands along the upper Sacramento and around the mouths of the Sacramento and San Joaquin. On all such soils there will be nearly a full harvest and counting from every source of supply we think it may be counted on with certainty that there will be at least half as much grain thrashed out in 1870 as in 1869 Those who have half a crop are likely to sell it for nearly as much as their whole crop brought last year But where there is a total failure—as in the southern counties—it will be peculiarly hard on the farmers since their next year's seed will stand them at a very high price; because in addition the San Francisco market value they will have to include the cost of transportation All the surplus of San Joaquin county will not much more than supply Stanislaus Merced and Fresno with necessary seed for another year's planting

For Delegate to Congress:

Republican Platform

Adopted by the Republican Territorial Convention at Vancouver, April 21st, 1870

Resolved That the Republicans of Washington Territory are in full accord with the great Republican party of the Nation the party that maintained and carried the Government through the most powerful and gigantic rebellion known in history notwithstanding the aid and assistance rendered by its domestic [illegible] traitors at home the party that successfully triumphed over the arms of the rebels at the South that removed the foul blot from the national escutcheon that disgraced us in the eyes of the civilized world that sustained our financial credit beyond the hopes of the most sanguine that has shown a magnanimity and forbearance to the vanquished that challenges the admiration of mankind and that over [illegible] the people has opened a highway for the interchange of products of the Eastern and Western [illegible] of the continent that will long be marked as one of the wonders of the age

Resolved That we regard the administration of President Grant as eminently successful that the difficult questions which were presented by the anomalous condition of eleven States at the close of the rebellion have been settled in accordance with the fundamental principles of justice and political economy and we confidently look for a speedy [illegible] and perfect restoration of the constitutional relations between all the States and the General Government

Dr Gibbon's Dispensary,

623 KEARNY STREET NEAR COMMERCIAL San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Syphilis in all its forms Seminal Weakness Impotency [illegible] Diseases of [illegible] years standing [illegible] Ulcerated Legs successfully treated

Horrible Diseases.

How many [illegible] of persons both male and female are there who are suffering out a miserable existence through [illegible] indulgences or from virus absorbed into the system Look at their pallid emaciated [illegible] and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life until death closes the scene Let parents guardians friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal [illegible] the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical means viz. sallow countenance, dark spots under the eyes pain in the head ringing in the ears, noise like the rustling of leaves and rattling of chariots uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes pimples and various eruptions about the face, furred tongue foetid breath, coughs consumption night sweats monomania and frequently insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and unparalleled mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco [illegible]

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary. Some of these self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are [illegible] and became too lazy to work at their trades Some are tinsmiths shoemakers [illegible] and [illegible] intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes, in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets, as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure
